*Hello Everyone!*

Spring 2024 will soon be here! I am really looking forward to the upcoming In-Person shows again this year.

Our New and 1st Annual Virtual Show! "VIBE" has been juried and the results are now posted on our Website. Lots of beautiful pieces were entered. I especially liked the "Best of Show" I am sure my Granny, my Mom and now myself have an apron that is tied just like that. Beautiful and heartwarming piece. Congratulations to all the winners. We have some issues show up with our first VIBE that need to be ironed out, going forward. We are not the all-knowing Wizard of Oz and did not anticipate all the things we needed to clarify for entry. Membership having 2 deadlines, what categories were acceptable as entry, one Open Division, to name a few. I am, as always grateful to all our board members for their efforts to create this new Show! It is my belief that this show will grow to become a very exciting new way for us all to get our work out there.

2024 looks to be a fabulous year for our in-Person Shows as well. We have Art Clubs in place for all 3 Zone Shows, and also for the Alberta Wide Show. They are already busy making plans and getting ready! I look forward to attending them all!

There were many people that brought forward difficulties experienced in and regarding our processes getting these shows out and entered. The board has discussed it at length and have begun the upgrade to our website, we have clarified information and with the help of our website designer are creating drop down menus for you the artists and host art clubs. Information will be listed in the order you need to access the information and we are taking care with how the pages are titled to help you navigate the site. I am looking forward to seeing this change come to fruition. The construction on the website has been underway and with still a couple of edits perhaps to go, it functions much better. I am thankful for our Web Designer, Chewie Media, our new Newsletter Editor and Media Liaison, Tania Sprong and Linda LaRochelle for all their hard work. Thanks to the board for listening to the ideas and concerns and putting this together! You are all amazing.

Please take note of the deadlines to enter the Zone Shows. Then Paint, Create, Package and Deliver your art to the shows! All the information you will need to enter these Zone Shows is included in this Newsletter. See you all soon!

I look forward to another exciting year. Our new annual virtual show, VIBE kicked off the year with a bang, now, as well, as all our usual "in person shows" will fill the year with beautiful Art.

Remember... Above all else... keep creating and helping each other stay connected. These things are much needed in this new world.

# What up with AI?

This article first appeared in the Edmonton Art Club March 2024 Newsletter and is reprinted here with the generous permission of its author, Mary Frances Fitzgerald

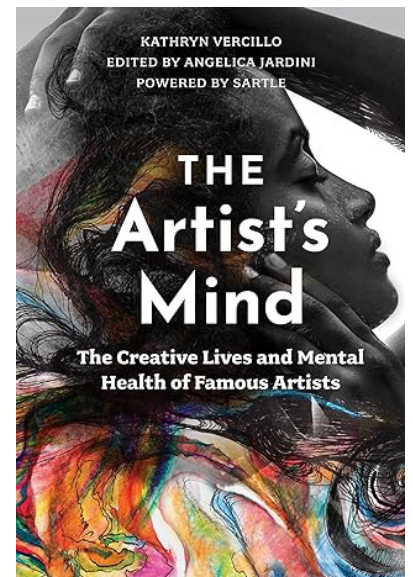

What up with AI? Do you remember a photo of your elders from a few generations ago? Have you ever thought about the type of camera created to capture your relatives in their staunch glory? I have photos from 3 previous generations and know that as an amateur photographer, I have been delighted with each new camera that has helped me create. Thank goodness for the ability to scan, upload and create my historical photo albums.

Now, let's jump to the year 2024. This past year we have started to work with generative artificial intelligence (AI), knowingly -or unknowingly. In many types of Facebook art groups I am beginning to see many FB comments questioning if the work posted is AI or AI-assisted. I read the negative comments if AI is suspected -so, the negativity begins. We have adapted to new technology over the decades, and yet this new generative technology is about the unknown control it might have over human intelligence. As I write, AI is busy exploring millions of bytes of information. This may cause anxiety for everyday persons not skilled at using their cell phones with cameras, or not up to date on Information Technology (IT).

In an article I recently found, <https://themuse.substack.com/p/is-ai-anxiety-affecting-your-art> Brigitte Racine invited Kathryn Vercillo, author of *The Artists' Mind: The Creative Lives and Mental Health of Famous Artists* to share some ideas on combating our fears of AI.

Here are a few tips to reduce AI anxiety.

- Learn how to use AI in its simplest form, this will help increase your sense of control.
- Spend time with creative people who are excited by their human creative processes.
- Investigate Glaze: a tool to protect your work and a software app that protects digital images and AI scraping. at <https://glaze.cs.uchicago.edu/whatisglaze.html>
- Get involved in initiatives, actions, and organizations working toward artists' creative agency and creative rights.
- Make time to discuss your concerns and/or excitement about AI.

*I am looking forward to reading *The Artists' Mind: The Creative Lives and Mental Health of Famous Artists* -I have to wait as it is on hold from our Edmonton Public Library. ~ Mary Frances Fitzgerald ~*

## Southern Zone Representative

I want to thank the Oldman River Arts Club (ORAC) for offering to host the South Zone Show for a second year. I really enjoyed last year's show and I know it was a success because of their great ideas and hard work.

When Tania of ORAC proposed this year's theme of "New Beginnings" for the South Zone Show, I instantly thought of how I feel when starting a new piece of artwork.

The idea to start anew motivates me to begin, allows me to let go of what didn't work previously and brings on a sense of anticipation for how others will perceive the piece. I hope some of you feel similar and I look forward to seeing all your creations this year.

## Confluence: Where Art and AI Meet

AI, love it or hate it, is officially part of our lives now. Between online book cover competitions being shut down because of, and State Art Fair prizes being handed out to AI art, we felt it was a good time to actually sit down and have a chat about it.

As part of our theme of 'New Beginnings', Oldman River Arts Club is hosting 'Confluence: Where Art and AI Meet, a workshop with James Graham'. A talented artist in his own right, James is a retired professor in the Department of New Media and has followed his curiosity to explore the realm of AI. As both an educator and an artist, we believe that James is the perfect person to lead a discussion on the blending of Art and AI, its actual and potential impacts and the opportunities it presents to the artistic community.

Details on the workshop will be posted online as they are finalized. In the interim, we can share that the workshop will have both a discussion and a limited interactive aspect. We can't wait to see what James has in store for us!

A special thank you to the University of Lethbridge Art Gallery for facilitating our introduction to James.
